Joint New York & Central New Jersey IFT DINNER MEETING

“GMO: The Hero or the Evil Empire”

Dr. Joe M. Regenstein

Department of Food Science - Cornell University

Wednesday, November 16, 2016

Grain House Restaurant at The Olde Mill Inn – Basking Ridge, NJ

EXCOM Meeting	3:30–5:00 pm
<i>Members are encouraged to attend the EXCOM meeting</i>	
Networking Hour (Cash Bar)	5:00–6:00 pm
Bylaws Voting & Speaker	6:00–7:00 pm
Dinner	7:00 pm

The world will need to feed over 9 billion people by 2050 and will have to do so using less agricultural land and quite possibly using agricultural land that is degraded (e.g. saltier) or more difficult to work with due to climate change and overuse. Genetic modification of biological organisms is a very powerful tool to help meet these needs. As reported in “Genetic Modification and Food Quality: A Down to Earth Analysis” a recent book by Professor Robert Blair, primary author; and Dr. Joe Regenstein, scientific work shows essentially no food safety/food use concerns with genetic modification. Additionally, even though a review of the history of breeding shows that some of the unregulated forms of breeding are potentially much more dangerous than modern genetic modification, many consumers remain uncomfortable with GMO technology. It is the responsibility of the scientific and agricultural communities to help consumers and government address consumer concerns, show the benefits of this technology and help consumers understand the safety of these products. Dr. Regenstein will introduce and discuss a framework to help with this process.

Dr. Joe Regenstein is a Cornell Professor Emeritus of Food Science in the Department of Food Science and a member of the Jewish Studies Program. He heads the Cornell Kosher and Halal Food Initiative. Dr. Regenstein is an Adjunct Professor of Food Science at Kansas State University, where he teaches his Kosher and Halal course by distance learning, a Distinguished Foreign Expert at Jiangnan University in Wuxi, Jiangsu, China, and an Adjunct Professor at Chiang Mai University in Thailand. Dr. Regenstein was IFT’s first Congressional Science Fellow, is an IFT Fellow and a New Zealand Institute of Food Science and Technology Fellow, and has received both the Elizabeth Stier Humanitarian and the Bor Luh International Awards from IFT. In collaboration with his wife, Carrie, he wrote “Food Protein Chemistry, An Introduction for Food Scientists” which was published in 1984. Their second book, “An Introduction to Fish Technology”, was published in 1991. His third book, written with Dr. Robert Blair at the University of British Columbia (emeritus) is “Genetic Modification and Food Quality: A Down to Earth Analysis” which was published in 2015.

Notice of Proposed By-laws Changes

As part of the move for sections of IFT to become part of unified membership, each section needs to update their bylaws. Changes to bylaws must be ratified by membership. An official membership vote will take place at **6:00 p.m.** to adopt the new Bylaws. These are available for download for your review prior to the meeting.

There will be a free shuttle that will take you to and from the stadium.

Join Your Colleagues for an Afternoon at the Movies Food Evolution will be shown at the School of Visual Arts Theatre

When the project FutureFood 2050 was launched by IFT, they chose the New York Section to be the first to hold a panel discussion. The documentary created "Food Evolution" is making its world premiere in Manhattan on November 12 with the following expected to attend: Director Scott Hamilton Kennedy; Writer/Producer Trace Sheehan; Narrator Neil deGrasse Tyson.

As society tackles the problem of feeding our expanding population safely and sustainably, a schism has arisen between scientists and consumers, motivated by fear and distrust. *Food Evolution*, narrated by Neil deGrasse Tyson, explores the polarized debate surrounding GMOs. Looking at the real-world application of food science in the past and present, the film argues for sound science and open-mindedness in a culture that increasingly shows resistance to both.

- WHEN:** Saturday, November 12, 2016 at 4:15 p.m.
- MOVIE:** Food Evolution (*Documentary from FutureFood 2050 launched by IFT*)
- WHERE:** School of Visual Arts (SVA) Theatre, 333 West 23rd Street, (between 8 & 9 Ave), New York, NY
- COST:** \$18/Adults; \$16/ Seniors & Children

Purchase tickets online at <http://www.docnyc.net/film/food-evolution/> Directions to theatre available online

2016-2017 STUDENTS AWARDS PROGRAM

The New York Institute of Food Technologists (NYIFT) is proud to announce its 2016 - 2017 Students Awards Program. The NYIFT with its Central New Jersey subsection will again sponsor scholarship awards at the local level and through the Institute of Food Technologists (IFT). Additionally, a Poster Competition for exhibit at Student Night will be held. These awards represent the NYIFT's commitment to the growth of up and coming Food Scientists. The programs are outlined below.

We'd like to take this opportunity to encourage you to participate in these programs and wish those who do **GOOD LUCK!** These scholarships are only a small part of what the NYIFT and its Central New Jersey subsection have to offer. To gain a better understanding about the Food Industry and to meet professionals involved in the industry, all you have to do is to attend the monthly meetings. The cost to you is your time and a nominal (subsidized) cost for your meal. The rewards are truly immeasurable! We hope to see you at meetings. If you have any questions, feel free to contact **Melanie Qianyun Gong**, Awards Committee Chair at melaniegong0713@gmail.com.

🔗 APPLICATIONS CAN BE FOUND AT THE END OF THIS NEWSLETTER 🔗

IFT SCHOLARSHIP

The NYIFT sponsors one Graduate (\$1,500) and two Undergraduate (\$1,000 each) IFT Scholarships. Information can be found at www.ift.org.

NYIFT SCHOLARSHIPS

The NYIFT Scholarship Program will seek to award three Graduate Scholarships at \$1,500 each and two Undergraduate Scholarships at \$1,000 each. Scholarship application forms for the NYIFT Scholarships are available for students online and are included at the end of this newsletter. The filing **deadline is January 10, 2017**. Interviews and judging will take place on January 20, 2017. In the event of inclement weather, judging will take place on January 27, 2017.

To be eligible for one of these scholarships, the prospective student must:

- **have a GPA of 3.0 or better**
- **be enrolled in an IFT accredited Food Science Program**
- **have paid his/her IFT and New York Section membership dues for 2016-2017**

The Scholarships are awarded to those academically qualified students who are selected by the Awards Committee following personal interviews. Awards will be presented at "**Student Night**" at the NYIFT **February 9, 2017** meeting, and recipients attend as guests of NYIFT. Previous recipients are encouraged to continue their participation.

POSTER COMPETITION

As part of the "Student Night" Program, interested students are encouraged to present their research. Poster presentations will be judged by the Awards Committee prior to Student Night. Monetary awards (\$500 - first place, \$300 - second place and \$200 - third place) will be presented to the top three presenters at the **Student Night Meeting on February 9, 2017**. All students participating in the Poster presentation at the February meeting are invited to attend the dinner that follows, free of charge. Filing deadline for the poster abstracts is **January 6, 2017**. Poster Judging will be held on the afternoon of Student Night (February 9).

All reasonable material costs associated with preparation of the posters will be reimbursed by the NYIFT. Reimbursement of expenses will be handled through the Food Science Club. Receipts for poster suppliers are required.

SCHOLARSHIP FOR A DEPENDENT OF NYIFT MEMBER

The NYIFT awards one scholarship (\$1,000) to a **dependent** of a **NYIFT member**. Applications must be emailed by **November 21, 2016**. The winner will be announced shortly thereafter.

2016-2017 NY & CNJ IFT Mentoring Program

In the September NYIFT newsletter we briefly mentioned starting a mentoring program. Since then we've discussed the idea at ExCom meetings, dinner meetings and with many of you. After all this research we're ready to begin accepting applications for the program. NYIFT has over 1,100 members. The shared experiences from our combined years in the industry and academia are not easily measured. We are suggesting that you expand your network and bond like never before to make our group stronger and smarter! Everyone -- from students to teachers, to members working for ingredient manufacturers or flavor houses and consumer product companies -- will benefit. Please help us as we take this step toward making our big group a little closer by starting a mentoring program. Pollination of ideas and networking is rewarding and educational for all involved.

We are hoping that you choose to help us achieve our goals of sharing education this year. Feel free to contact Adam Getzel at adam@citrasource.com with questions or to submit your completed form.
